

Postdoc in the group of Sam Safran at the Dept. of Chemical and Biological Physics at the Weizmann Institute of Science, a multidisciplinary research center in Rehovot, Israel.

We are looking for a postdoc to start in summer/fall 2019 with expertise in analytical approaches to soft matter physics and/or biological physics for research in cell and nuclear mechanics related to experiments of our international collaborators.

Our areas of interest are represented by the publications on our Web page <http://www.weizmann.ac.il/fluids/SafranGroup/>.

Conditions of the postdoctoral fellowship can be seen at: <https://www.weizmann.ac.il/feinberg/fellowship-aid/postdoctoral-fellows>

Please email: sam.safran@weizmann.ac.il with a CV, list of publications and research statement by December 15.
