

Call for Applications 2019 – IMPRS for Quantum Science and Technology

The **International Max Planck Research School for Quantum Science and Technology** is opening **new PhD positions** in fall 2019.

The IMPRS, based in Munich, is a joint program of the **Max Planck Institute of Quantum Optics**, the **Ludwig-Maximilians-Universität München** and the **Technical University of Munich**. It offers an excellent and coherent graduate program in quantum science, including basic and specialized courses, as well as annual summer schools. It also includes soft skills courses, industry contact, and an international and interdisciplinary environment in strong exchange with partner programs. The IMPRS-QST is closely connected to the newly founded **Munich Center for Quantum Science and Technology (MCQST)**.

We welcome talented and motivated students with interest in **atomic physics, quantum optics, solid state physics, material science, quantum information theory, and quantum many-body systems** to apply.

Applicants must have a Master's degree (or equivalent) before September 2019. Deadline for application is **February 15th, 2019**.

All PhD positions are funded and there are no tuition fees.
