

=====

The quantum many-particle research group at the Missouri University of Science and Technology expects to fill a postdoctoral position condensed matter theory. The group is led by Thomas Vojta, with research interests in quantum, classical, and nonequilibrium phase transitions, disordered system, magnetism and superconductivity. More information can be found at <http://web.mst.edu/~vojta>. We are looking for a candidate with experience in one or more of these subjects. The position is anticipated to start on September 1, 2019, but earlier or later start dates may be possible. The initial appointment will be made for one year, with a possible extension for another year. Potential applicants should email CV, list of publications, a description of research interests, and names of three references (with e-mail addresses and phone numbers) to vojta@mst.edu. Review of the applications will begin on March 10, 2019, but applications will be considered until the position is filled.

Missouri S&T is an AA/EEO employer and does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age, disability or status as a protected veteran. Females, minorities, and persons with disabilities are encouraged to apply. The university participates in E-Verify. For more information on E-Verify, please contact DHS at 1-888-464-4218.
